

NOTICE OF PRE-QUALIFICATION

Port of Tanjung Pelepas Sdn. Bhd. is the most modern container terminal in Malaysia. The current port offers 12 berths totalling 4.32 km of linear wharf length, and a 1.2 million square meters container yard which contains around 200,000 TEU in storage space, 38,000 ground slot and 4,200 reefer points. The entire master plan of the port envisages over 95 berths with 150 million TEU terminal handling capacity making it the only port in South East Asia with long term potential to handle increasingly growing container traffic. It has garnered international recognition by winning the Best Container Port in the World Award in 2004 and 2006, only within 7 years of its operations and recognized as the fastest growing port in the world as well as the largest container port in Malaysia and the 17th largest in the world.

Pelabuhan Tanjung Pelepas Sdn. Bhd. wishes to invite qualified and experienced contractors with the following expertise to participate in a rigorous Pre-Qualification exercise. Only shortlisted Contractors will be notified to proceed to the subsequent stage of Request for Proposal or tender submission.

PROJECT OVERVIEW

1) Berth Construction

The works involve the construction of an approximately 720 meter length of wharf, and roadways (720m x 35m) behind the wharf inclusive of electrical substation and other relevant accessories and services.
