INTRODUCTION

Welcome to Port of Tanjung Pelepas. The purpose of this brochures is to share important information and guidelines; which is intended to assist vessel and her crew for safe and efficient operational activities during the entire port stay.

GENERAL SAFETY

Safety: Please ensure that ship's crew is attired in safety gear (**Safety Helmet, High Visibility Safety Vest and Safety Shoes**) at all times while at the terminal.

Walking and cycling are strictly prohibited within the terminal area to maintain safety and efficiency.

The terminal provides shuttle bus services for the crew to move safely around the terminal.

GANGWAY SAFETY

Handrails: Handrails should adequately fence off the ladder and be kept at a height of at least 1m. If these are made of rope, they must be monitored and kept taut at all times.

Steps and platforms: Steps and platforms must be kept clear of oil and debris. If a bottom platform is fitted on the gangway, this must be kept horizontal and have stanchions fitted to enable the safety rope to continue through them.

Safety net: If it is applicable and practicable, a safety net is to be fitted under every part of the access ladder or gangway, extending on both sides and kept taut. The net must not be secured to any fixed point on the quay.

Please ensure at all times your vessel gangway does not cross **ONTO OR BEYOND** the yellow line as indicated below:-

Fig 2 : The correct gangway positioning

The Port of Tanjung Pelepas will not accept any liability for damage to your vessel's gangway if the above instructions are not followed.

OPEN HATCH SAFETY

Walking on open hatch covers is always hazardous, and strict safeguards, such as guardrails, are mandatory near open cargo holds to prevent falls from height.

No operations shall be carried out near unguarded open cargo holds.

HARASSMENT

As an equal opportunity employer, we request that all personnel on board the vessel engage in respectful interactions with female workers. We expect our staff to demonstrate the same respect toward all crew members. Any deviations from this standard should be promptly reported.
